Core Competencies & Work Achievements:

KLocTechnologies, Bangalore — Full stack MERN Developer (Mar2021-November-2022)

<https://www.kloctechologies.com>

- It was my responsibility to develop Mern Application for Shopify clients
- One of the major apps I worked on was Shopify, where I developed private and public apps for Shopify's clients
- Additionally, I would work on some other client-required applications
- There were also regular activities such as designing, testing, developing, presenting, and learning new technologies.

Webxinfinity,Bangalore – Full stack MERN

<https://webxinfinity.com>

- My role was to develop and design the front end Ui of e commerce (nclap) Majorly worked on design and Ui part worked on customer login register and customer Faq page
- My responsibility was to mentor the interns and communicate with the client about the project, including how to display the deliverables.
- Aside from that, I would also work on a Content Writing, Wordpress project, some marketing initiatives, and static websites.
- Since it was a start-up, I was keen to learn, showed interest throughout every field, and worked throughout every field during mine leisure time

DCT Academy – Internship / Full stack MERN developer course

<https://dctacademy.com>

- Got Trained on Javascript , html ,css and Front end Technologies like reactjs and State Container Reduxjs and back end technologies like Nodejs and express and non Sql mongodb , mongoose
- Did some major projects on the Full stack mern some projects are mentioned below please go through it.

Projects:

1. **Ticket Master** - Full stack MERN App

<https://github.com/NaveensBelandur/ticket-master-front-end>
<https://github.com/NaveensBelandur/ticket-master-back-end>

It is a MERN stack application where you can create update and destroy the ticket and all CRUD operations and each support ticket includes key-Information about the customer issue

2. **Fun-App** - Full stack MERN App ,Portfolio

https://github.com/NaveensBelandur/Project-Front_end
https://github.com/NaveensBelandur/Project-Back_end

It is a MERN stack application that functions similarly to a

secret message; after registering and filling out your profile, a link is generated that you may share on any social media site (WhatsApp, Facebook, Instagram) when your friends click on the link they receive. When someone submits a message about you, you can view the message but not the sender; only the message is visible.

3. **Notes-App** - Full stack MERN App ,Portfolio

<https://github.com/NaveensBelandur/Notes-app-backend>

It is complete back-end application this is similar like google notes in this app you can create,edit,delete notes all CRUD operation

And also Some other Project :- <https://github.com/NaveensBelandur/>

Certificates:

1. Full stack MERN developer
2. Pradhan mantri kaushal vikas yojana (PMKVY) Skill India (Retail sale associate)
3. Entrepreneurship workshop
4. Machmillan exam

Sports:

1. The State level basketball player
2. Snooker
3. College level Table-tennis player
4. Skating,Tug of war

Extracurricular activities:

1. My main pastime is video editing, which enables me to express my ideas through original videos. I adore thinking in pictures.
2. Reading books helps me develop my personality and learn about many topics.
3. Writing comedy scripts and dialogues and some acting in youtube videos

Volunteer works:

1. Organised a COMBIZIT the culture festival at the degree-granting college in Soundarya, which attracted more than 2000 guests. I was in charge of the technical team there, and my job was to direct the group and make posters for promotions. Making trailers, flash mobs, and other entertainment-related activities helped me hone my creative and entertaining abilities.
2. My job was to spread awareness about polio, travel to different locations with my team, and administer polio drops to children as part of the pulse polio campaign, which helped me get better at public speaking.
3. The technical head in the inter -college GST conference held in your college

Research works:

- 1> Completed a survey. Drink Technology India South (DTI-South), which was initially held in Bengaluru at the BIEC by Messe München India, has built a solid reputation on the South Indian market. 6,481 visitors, more than 90 brands. My responsibility was to oversee a survey team and conduct an event survey. My interpersonal and communication abilities have improved because to it.
- 2> Conducted a customer satisfaction survey at the Volkswagen service centre. My responsibility was to compile a report based on the customer feedback regarding their car service.

Languages :

Professional English and Kannada proficiency. Telugu, Tamil, and Hindi are all manageable.

Personal Details :

1. Date of birth ; 7/10/1997
2. Address:Bangalore

My ability to communicate effectively as well as adapt to new situations and stay up with modern technology are, in my opinion, my strongest suit.

I sincerely appreciate your time.

I hope you have happiness and success in the future.
